Model No-Smoking Policy

Lease Addendum

Purpose and Application

The model no-smoking policy lease addendum provides sample language that can be used to establish no-smoking policies for public housing authority buildings, Housing Choice Voucher properties, Section 8 project-based properties, private non-profit affordable and market-rate housing, and condominiums. This sheet explains how the attached language can be used in each setting. The language in the model policy is not mandatory but has been found to be effective in implementing and enforcing no-smoking policies. (For HUD requirements on notice and timing of implementation of lease changes, see: *Comparison of Smoke-Free Housing Policy Factors; Private Market Rate versus Publicly Subsidized Multi-Unit Housing* available at <http://bit.ly/rGAIII>).

Public Housing Authorities

A Notice from the Department of Housing and Urban Development's Office of Public and Indian Housing in 2012 (see link in **Resources**) encouraged all public housing authorities to adopt smoke-free policies for some or all of their buildings. This notice also clarified that smoke-free policies can be added to an existing lease agreement or by including a lease addendum.

Section 8 Project-Based Properties

A Notice from HUD in 2010 encouraged Section 8 project-based properties to adopt smoke-free policies. That notice clarified that for Section 8, and other subsidized rental properties listed in the Notice, (see 2010 Notice; link in **Resources**) the addition of the smoke-free policy should be made through a change to the house rules or policies and procedures. The Notice also references the notice requirements before the house rules can be implemented and states that noncompliance with the no-smoking rule or policy could result in eviction. The no-smoking lease addendum language can be used to create a new house rule restricting or prohibiting smoking.

The model lease addendum can be used as an addendum to an existing lease agreement, or it can be incorporated directly into a new lease. All residents in Housing Choice Voucher properties, whether voucher supported or not, should be subject to the same lease language, including the no-smoking policy.

Common Interest Communities

The model no-smoking lease addendum can be used to implement smoke-free policies for owner-occupied multi-unit properties. Policies imposing use restrictions on owner-occupied units can be implemented through a change in the association declaration or the by-laws, or by the addition of a new rule or regulation. The language provided in this model addendum can be modified to fit the particular circumstances of a condominium complex, such as language to address the extent of the policy and enforcement procedures.

8. Disclaimer by Landlord. Tenant acknowledges that Landlord's adoption of a no-smoking policy and the efforts to designate the rental complex as no-smoking do not in any way change the standard of care that the Landlord or managing agent would have to a Tenant household to render buildings and premises designated as no-smoking any safer, more habitable, or improved in terms of air quality standards than any other rental premises. Landlord specifically disclaims any implied or express warranties that the building, common areas, or Tenant's premises will have any higher or improved air quality standards than any other rental property. Landlord cannot and does not warranty or promise that the rental premises or common areas will be free from secondhand smoke. Tenant acknowledges that Landlord's ability to police, monitor, or enforce the agreements of this lease addendum is dependent in significant part on voluntary compliance by Tenant and Tenant's guests. Landlord shall take reasonable steps to enforce the no-smoking policy. Landlord is not required to take steps in response to smoking unless Landlord knows of said smoking or has been given written notice of said smoking. Tenants with respiratory ailments, allergies, or any other physical or mental condition relating to smoke are put on notice that Landlord does not assume any higher duty of care to enforce this lease addendum than any other landlord obligation under the Lease.

Attorney Douglas J. Carney prepared the initial version of this Model Lease Addendum. He received ongoing advice, consultation, and recommendations from a legal advisory committee that included attorneys who regularly advise property owners and managers, who serve as tenant attorneys and advocates, or who advise public housing agencies. Representatives from Center for Energy and Environment and the Association for Nonsmokers-Minnesota were also on the committee. The development of the lease addendum was supported by a grant from ClearWay MinnesotaSM. The modification about where smoking is allowed (Section 3) was included by Initiative for Smoke-Free Apartments. The addition of language addressing electronic cigarettes was added by Warren Ortland of the Public Health Law Center.
